

## Interim Report January-M arch 1997

Swedish M atch sales during the first quarter of 1997 declined 3 percent to SEK 1,684 M, compared with SEK 1,733 M during the corresponding period in 1996. The Cigarettes Division reported the largest shortfall in sales, due to extensive hoarding (estimated at SEK 75 M ) toward year-end 1996 because of the tax increase introduced on January 1, 1997.

Operating income before nonrecurring items amounted to SEK 334 M , an increase of SEK 15 M compared with the first quarter of 1996. In terms of earnings, higher prices and volumes for Chewing Tobacco and Snuff more than offset the effect on operating income of the decline in cigarette sales, which was largely, SEK 45 M , due to hoarding in Sweden.

## Division Chewing Tobacco

Chewing Tobacco operates almost exclusively in the N orth American market.

Sales during the first three months of 1997 amounted to SEK 295 M , an increase of SEK 47 M , or $19 \%$, compared with the corresponding period in 1996. The increase was attributable primarily to premium products in
the Red $M$ an brand line and the stronger U.S. currency. O perating income rose from SEK 59 M to SEK 104 M, based mainly on higher sales, a greater percentage of high-price products and cost savings.

Share of Group Operating Income, 24\%

Sales of cigarettes and tobacco for roll-your-own cigarettes is primarily in Sweden but also in Estonia and certain other export markets.

Sales during the first quarter of 1997 totaled SEK 349 M , a decline of SEK 76 M compared with the corresponding period last year. The decline was due essentially to hoarding prior to the introduction of higher
cigarette tax at year-end 1996. O perating income fell from SEK 143 M during the first quarter of 1996 to SEK 94 M this year. The effect of hoarding tow ard year-end 1996 on operating income during the first quarter of 1997 has been estimated at approximately SEK 45 M.
 Group Sales, 9\%

Western Europe is the division's most important market. Cigars are also exported to a large number of other markets.

Sales during the first quarter of 1997 amounted to SEK 151 M (159). The decline was caused mainly by
changes in currency exchange rates. O perating income rose to SEK 30 M (25). The launch of premium cigars was initiated in the U.S. during the quarter, but the launch had no significant impact on quarterly results.

## Division Lighters

The division markets disposable lighters in virtually all lighter markets around the world.

Sales during the first quarter of 1997 amounted to SEK 211 M (212). Sales volumes were somewhat lower

## Division M atches

The division markets matches primarily in Western Europe and Brazil, but it also has large export volumes in markets around the world.

Sales during the first quarter of 1997 amounted to SEK 303 M , a decline of SEK 26 M compared with the corresponding period last year. The decline was caused
mainly by lower volumes. O perating income totaled SEK 26 M , virtually unchanged from the first quarter of 1996. Improvements in productivity compensated for effects on income caused by lower volumes. Group Sales, 18\%
than last year, primarily in N orth America and Asia. Operating income declined from SEK 11 M to SEK 10 M due to lower volumes.

The division is responsible for the Company's pipe tobacco business worldwide, but its primary markets are the U.S. and Sweden.

Sales during the first three months of 1997 fell to SEK 37 M from SEK 49 M during the corresponding period last year, primarily the result of large deliveries to

Switzerland and the U.S. that were planned for 1997, but made already in the autumn of 1996 As a result, operating income declined from SEK 9 M during the first quarter of 1996 to SEK 5 M this year.

## Division Snuff

The division markets moist snuff products mainly in the growing markets in Sweden and the U.S.

Sales during the first quarter amounted to SEK 238 M , an increase of SEK 37 M compared with the corresponding period last year. The increase in Sw edish

M atch's market share in the U.S. continues. O perating income improved as a result of higher volumes and prices in Sweden and the U.S., from SEK 86 M to SEK 115 M.

## Financial result

$N$ et interest improved compared with the first quarter of 1996 as a result of lower net debt. Other financial items, reflecting a net total of SEK 21 M (9), are attributable primarily to exchange gains on financial assets and liabilities.

## Investments, financing and liquidity

Group investments in tangible assets during the first three months of 1997 amounted to SEK 53 M (51). Liquid funds, including short-term investments, totaled SEK 395 M at the close of the three-month period under review, compared with SEK 942 M at the beginning of 1997. $N$ et debt at the end of the period was SEK 519 M , an increase with SEK 442 M from yearend 1996. The net debt at year-end 1996 was low due to the fact that liabilities for income taxes and tobacco excise taxes were a total of approximately SEK 500 M higher than normal. These liabilities have been paid down and are now at a normal level.

## Average number of Group employees

The average number of Group employees during the first three months of 1997 was 6,321 , compared with 6,840 during the same period in 1996. The average number of employees in Sweden was 1,444, compared with 1,554 last year.

## Increase in Swedish tobacco tax

In its budget proposal, the Swedish government has announced a 29 percent excise tax increase on cigarettes, effective August 1, 1997. To date, it has been possible for Swedish M atch to compensate for lower volumes attributable to higher tax through increased prices. H owever, the new tax increase will make cigarettes in Sweden much more expensive than in most neighboring countries. Consequently, the scope for further price increase is limited.

## Other information

This report has not been reviewed by Swedish M atch's auditors.

The interim report for the first six months of 1997 is scheduled to be released on August 12, 1997.
