## January-September 1999

In line with the new strategy of focusing on smokeless tobacco, cigars and pipe tobacco, the Group has been restructured during the first nine months of the year. * The cigarette business was sold for SEK 4,800 M, resulting in a capital gain of SEK 4,102 M.

* Cigar operations in both the mass-market and premium segments have been acquired in the United States. These acquisitions are contributing SEK 850 M in annual sales.
* The snuff and pipe-tobacco company Dingler in South Africa with annual sales of SEK 360 M has been acquired after the close of the period. * A more cost-efficient management structure has been implemented.

The Group balance sheet has been strengthened substantially. The equity/assets ratio has increased to 46 percent and the net debt is positive in the amount of SEK $1,746 \mathrm{M}$. Thus, the Group has substantial financial freedom of action, with the financial capacity to both make additional acquisitions and redeem or repurchase shares.

Swedish Match's sales during the first nine months of the year increased by 14 percent, to SEK $6,858 \mathrm{M}$ $(6,037)$, of which acquisitions accounted for 7 percent. Sales in the third quarter rose by SEK 195 M, to SEK 2,418 M.

Operating income, excluding capital gain and cigarette business, increased by 35 percent, to SEK 1,036 M (767), in the nine-month period and operating income excluding
the cigarette operations, increased by 60 percent, from SEK 254 M to SEK 407 M , in the third quarter.

Snuff is continuing to show a strong increase in volume and improvement in margins, in the North American market in particular. Operating income for the ninemonth period rose by 26 percent, to SEK 607M (483).

Cigars reported strong growth in both sales, up 56 percent, and operating income, up 61 percent. The strong increase was due in part to acquisitions in the U.S. and in part to organic growth, notably in Western Europe.

Continuing cost reduction programs have resulted in sustained savings. The lighter plant in Lyon and a match plant in Brazil, were shut down during the third quarter.

The transaction was completed on August 19, 1999. Taxation of the capital gain is limited to the stamp duty, which amounts to 1 percent of the selling price.

## Net financial expense

Net interest expense in the first nine months amounted to SEK 93 M (expense 56). The increased interest expense was attributable mainly to increased borrowing in connection with the SEK $1,216 \mathrm{M}$ share-redemption program implemented in 1998, and to acquisitions. Other financial items amounted to net income of SEK $30 \mathrm{M}(-35)$.

## Investments

The Group's direct investments in tangible fixed assets amounted to SEK 334 M (203). These investments pertained mainly to brand names and goodwill related to the acquisition of General Cigar's business and El Credito Cigars in the U.S.

Depreciation according to plan totalled SEK 272 M (245). Investments in associated companies amounted to SEK 51 M .

The company manufactures, sells and distributes tobacco products in South Africa, with 25 percent of its volume pertaining to snuff and the remainder to pipe tobacco. ## New organization

The Group has been reorganized in six divisions: North Europe, Continental Europe, North America, Overseas, Matches and Lighters. The division managers report directly to the President and are members of the Group Executive Committee. The reorganization is designed to result in a more market-oriented structure with clearly defined responsibility for results, and to link Group management directly to the operating units.

## Average number of Group employees

The average number of employees in the Group during the period was 11,740 , compared with 9,199 in the 1998 period. The average number of employees in Sweden was 1,278 , compared with 1,456 in the year-earlier period.

## Preparation for the year 2000

Swedish Match has been working since 1997 to ensure that the Group's computer systems will be able to handle the changeover to the new millennium without problems. Slightly more than 250 systems have been checked. Virtually all systems have been subjected to final tests and are in production. The Group judges that it is well prepared for the millennium shift.

## Legal situation in US

The uncertainty concerning the legal situation for the American cigarette industry remains, despite settlements with the states in the so-called Medicaid cases. Swedish Match is not affected by this. The American subsidiary Pinkerton Tobacco Company has, during recent years, been named as a defendant in a number of individual productliability cases related to the use of smokeless tobacco. None of these cases have as yet gone to trial.

## Additional information

This report has not been reviewed by the Company's auditors.

The preliminary report covering operations during fullyear 1999 will be released on February 9, 2000.
