## Other events

A United States District Court granted Pinkerton Tobacco Company's motion for summary judgment dismissing all claims against Pinkerton in the so called Tuttle case. Pinkerton is a subsidiary of Swedish Match. Plaintiff has not appealed the Court's decision to dismiss the claims against Pinkerton. However, plaintiff is pursuing an appeal of the Court's decision granting summary judgment dismissing all claims against the other defendants in the case. Swedish Match has asked for final judgment to be dismissed from the case and expect such judgment shortly.

As earlier reported the Administrative Court of Minden in Germany decided in November 2002 to refer the question of the legality of the EU-ban on snus to the European Court of Justice in Luxemburg. Early April 2003 the High Court in the UK also decided to refer the same question to the ECJ, which now will deal with two referrals on the same issue, one from Germany and the other from the UK. The process in Luxemburg is estimated to take approximately two years.

During the first quarter, Swedish Match announced that the company had agreed to acquire CYAN d.o.o, a distributor of tobacco products in Slovenia.

> Smokeless Tobacco

Swedish Match has a broad presence in smokeless tobacco (Snuff and Chewing Tobacco), with significant positions in the Nordic countries, the US, and South Africa. The main organic growth is within the snuff operations in North America and North Europe. The growth is based, among other things, on the fact that smokeless tobacco products are increasingly recognised within the scientific and medical community as having significantly lower health consequences than cigarettes. This has been supported by the so-called Swedish experience (high consumption of snuff, low cigarette consumption and low frequency of tobacco related diseases).

Swedish Match is the only global producer of snuff, and has a leading position on the Nordic snuff market and in South Africa. In the US, the Company has the largest share of the fast-growing value price segment. The biggest brands are General, Catch, and Ettan in Sweden, Timber Wolf in the US and Taxi in South Africa.

Sales for the first three months amounted to 689 MSEK (672), an increase of 3 percent. Sales in local currency increased by 9 percent. In North Europe, volume grew by 3 percent versus an exceptionally strong 2002 first quarter, and in the US, volume grew by 6 percent, measured in number of cans. Swedish Match continued to improve its market position in the growing US market. Year-to-date market share in the US amounted to 9.3 percent,
according to Nielsen estimates, compared with 9.2 percent a year ago.
Operating income improved to 305 MSEK (290), up 5 percent due to improved volume, but was negatively effected by currency translation.
Over the past year, Swedish Match has increased investments in new markets. In India where Swedish snuff was launched in Mumbai in May 2001, sales geography has been expanded. In Russia, Swedish snuff was launched in Moscow. Swedish snuff has also been present in the markets of Slovenia and the Czech Republic for a number of years. These new markets are generally showing positive trends.

Chewing tobacco is sold primarily in the North American market. Major brands are Red Man and Southern Pride. Swedish Match is the leading producer of chewing tobacco in the US. The chewing tobacco segment is characterised by annual volume declines averaging 4-5 percent per year.

Sales for the first three months declined to 295 MSEK (344), or by 14 percent. In local currency terms, sales increased by 4 percent. Operating income declined to 84 MSEK (106), or by 21 percent. Currency translation accounts for 18 percentage points of this decline.

Swedish Match market share in the US remained stable at 42 percent.

## Cigars and Pipe Tobacco

Swedish Match is one of the world's largest producers of cigars and pipe tobacco with a broad presence globally. Long-term growth opportunities are mainly within cigars.

Swedish Match is one of the largest producers of cigars and cigarillos in the world and is the second biggest in sales value. The main markets are North America and West Europe. These two markets together make up about 75 percent of the world market for cigars. Swedish Match offers a full range of products worldwide, with both premium and machine made cigars. Major brands are Macanudo, Garcia y Vega, La Gloria Cubana, La Paz, Justus van Maurik, and Wings.

Sales for the first quarter amounted to 644 MSEK (778), a decline of 17 percent, of which currencies account for 12 percentage

Swedish Match is one of the largest producers of pipe tobacco in the world and the products are marketed worldwide. Major brands include Borkum Riff, Half and Half, and Boxer. The main markets for pipe tobacco are North America and West Europe. The Company also has a significant presence in South Africa.
points. Shipments were lower to several European markets. In the US mass market, Swedish Match has introduced several new products, with shipments beginning late in the first quarter. Sales of cigars in the US declined by 3 percent in local currency terms.
Operating income for the first three months reached 80 MSEK (122), a decline of 34 percent, affected primarily by currency translation and lower sales volumes.

Sales for the first quarter amounted to 214 MSEK (190), an increase of 13 percent. Operating income improved to 46 MSEK (42). Sales and operating income were positively impacted by an increase in the value of the South African Rand versus the yearago period, as well as improved volumes.

Swedish Match is number one in the world market for matches. The brands are mostly local, and have leading positions in their home countries. Major brands include Swan, Solstickan, Three Stars, and Red Heads.

Sales for the first quarter amounted to 348 MSEK (460), a decline of 24 percent of which currency accounted for 19 percentage
points. Operating income declined by 42 percent to 38 MSEK (65), due to negative currency impact and lower sales volume in Europe. Operating margin was 10.9 percent during the first quarter versus a strong 14.1 percent during the same period last year.
lighters

Swedish Match is the third largest producer of disposable lighters in the world and the main brand is Cricket.
Swedish Match sales for the first quarter was 151 MSEK (186) and operating income was 9 MSEK (20). Operating margin for lighters was 6 percent (10.8).

The lighter business is faced with an increasingly competitive situation due to low price competition, which has affected sales volume negatively. Operating margin for export of lighters produced in Europe has decreased as a result of the strengthening Euro.
