## Report on Operations full year 2003

Sales for the year declined to 13,036 MSEK $(13,643)$, or by 4 percent. In local currency terms, however, sales were up by 3 percent.

Operating income declined to 2,224 MSEK $(2,371)$, or by 6 percent. Currency effects when translating foreign subsidiaries' results into Swedish Crowns effected operating income negatively by 202 MSEK or by 9 percent. In local currencies operating income increased by 3 percent.

For snuff, sales increased on all markets and improved margins affected the Group's operating income positively by 153 MSEK.

For chewing tobacco, operating income was on par with year ago levels in local currency terms.

During the year, cigar sales in North America increased in local currency for both mass market cigars and premium cigars. Sales of premium cigars strongly increased during the fourth quarter. Sales of cigars in Europe showed a weakening tendency, primarily towards the end of the year. Operating income for cigars declined by 129 MSEK, primarily due to currency effects after translating results in North America into Swedish Crowns. Significant legal
expenses as well as costs for restructuring in Europe have also affected operating income negatively.

Pipe tobacco operating income improved somewhat during the year, primarily due to an improved operating margin in South Africa, where the currency also impacted results favorably.

Increased competition from low cost countries for lighters and matches has led to lower volumes and a lower result.

The Group's cash flow increased to 2,638 MSEK $(2,585)$. Despite considerable spending on share repurchase, relatively high investments in fixed assets as well as an increased dividend to the shareholders, the strong cash flow enabled net debt to be reduced by 777 MSEK to 2,715 MSEK.

Net interest expense improved to 54 MSEK (expense 229) after profitable cancellation of interest rate swap agreements during the second quarter. Net financial expenses improved to 50 MSEK (expense 245).
EPS for the year was 4.68 SEK (4.10), an increase of 14 percent.

The Board proposes an increased dividend to 1.70 SEK (1.60).

## Smokeless Tobacco

Swedish Match has a broad presence in smokeless tobacco (Snuff and Chewing Tobacco), with significant positions in the Nordic countries, the US, and South Africa. The main organic growth is within the snuff operations in North America and North Europe. The growth is based, among other things, on consumers being influenced by the fact that smokeless tobacco products are increasingly recognized within the scientific and medical community as having significantly lower health consequences than cigarettes. This has been supported by what has been termed "The Swedish experience" (high consumption of snuff, low cigarette consumption and lower frequency of tobacco related diseases).

Swedish Match is the only global producer of snuff, and has a leading position on the Nordic snuff market and in South Africa. In the US, the Company has the largest share of the fast-growing value price segment. Some of the best known brands include General, Catch, and Ettan in Sweden, Timber Wolf in the US and Taxi in South Africa.

Sales for the year amounted to 2,995 MSEK $(2,788)$, an increase by 7 percent. Sales in local currency increased by 12 percent. In the North Europe Division, volume grew by 4 percent versus 2002, and in the US, volume grew by 5 percent, measured in number of cans. Swedish Match market share for Timber Wolf in the growing US market amounted to 8.9 percent year-to-date, up from 8.7 percent year ago (Nielsen estimates). Swedish Match

#### Abstract

total market share in the US amounted to 9.2 percent, versus 9.1 percent year-ago. In April, Swedish Match successfully launched two new pouch products on the Swedish market, General White Portion and Grov White Portion. Both products feature a new whiter pouch and a new functional can design. During the third quarter, the Company launched Longhorn, a new value priced brand, on the US market.

Operating income improved to $1,386 \operatorname{MSEK}(1,233)$, up 12 percent due to higher volume and improved operating margin, but was negatively effected by currency translation after translating subsidiaries' operating income into Swedish Crowns.

For the fourth quarter, sales were 772 MSEK (698) and operating income was 359 MSEK (310).

Chewing tobacco is sold primarily in the North American market. Well known brands include Red Man and Southern Pride. Swedish Match is the leading producer of chewing tobacco in the US. The chewing tobacco segment is characterized by annual volume declines averaging 4 to 5 percent per year.

Sales for the year declined to 1,146 MSEK $(1,333)$, or by 14 percent. In local currency terms, sales increased by 3 percent. Operating income declined to 336 MSEK (406), or by 17 percent. Operating income is level with prior year in local currency.

For the fourth quarter, sales were 266 MSEK (310) and operating income was 72 MSEK (95).

Swedish Match market share in the US reached about 43 percent.

In Japan, Swedish Match launched a test market for a unique chewing tobacco gum, FIREBREAK ${ }^{\circledR}$. The product targets cigarette smokers who are interested in a smokeless alternative. Originally launched in 300 outlets in the Tokyo area, this test launch is being expanded, and initial response is positive. Costs for this program have negatively effected the product area's operating margin during the fourth quarter. broad presence globally. Long-term growth opportunities are mainly within cigars.

Swedish Match is one of the largest producers of cigars and cigarillos in the world and is the second biggest in sales value. The main markets are North America and West Europe. These two markets together make up about 75 percent of the world market for cigars. Swedish Match offers a full range of products worldwide, with both premium and machine made cigars. Well known brands include Macanudo, Garcia y Vega, La Gloria Cubana, La Paz, Justus van Maurik, and Wings.

Sales for the year amounted to 3,008 MSEK $(3,318)$, a decline of 9 percent, primarily attributable to currency effects. Sales in local currency have increased by 2 percent, with the strongest growth for mass market cigars in the US. Sales were marginally higher in local currency terms for premium cigars in the US. Sales for cigars in Europe declined.

In the US mass market new launches have resulted in increased sales volumes during the second half of the year.

Swedish Match is one of the largest producers of pipe tobacco in the world and the products are marketed worldwide. Well known brands include Borkum Riff, Half and Half, and Boxer. The Company has a significant presence in South Africa, North America and West Europe.

Sales for the year amounted to 909 MSEK (843), an increase by 8 percent. Operating income improved to 201 MSEK (164).

Operating income for the year reached 393 MSEK (522), a decline of 25 percent. Operating income was affected by currency translation by 58 MSEK, lower sales volumes in Europe and the US in the beginning of the year, as well as significant legal expenses for the premium cigar operations. The result has also been affected by approximately 30 MSEK of charges relating to restructuring of the European operation during the fourth quarter.

For the fourth quarter, sales were 787 MSEK (805) and operating income was 97 MSEK (111). Sales of mass market cigars as well as premium cigars in the US increased. Sales of cigars in Europe declined. The decrease in operating income is attributable to a lower result, including expenses for restructuring, in Europe. The increased result in local currency for both mass market and premium cigars in the US more than compensated for adverse effects of currency translation.

Operating income was positively impacted by an increase in the value of the South African Rand versus the year-ago period.

For the fourth quarter, sales were 253 MSEK (225) and operating income was 56 MSEK (45).

Swedish Match produces and markets matches and lighters globally. These products are sold in over 140 countries.

Swedish Match is number one in the world market for matches. The brands are mostly local, and have leading positions in their home countries. Major brands include Swan, Solstickan, Three Stars, and Redheads.

Sales for the year amounted to 1,395 MSEK (1,648), a decline of 15 percent of which currency translation accounted for 11 percentage points.

Operating income declined to 83 MSEK (221), due to significant lower sales volume in several markets and negative currency effects when translating foreign subsidiaries' results and export.

Swedish Match produces and distributes disposable lighters and the main brand is Cricket.
Swedish Match sales for the year were 599 MSEK (700) and operating income was 14 MSEK (74). Declines in operating income were due to price-reducing measures and lower sales volumes on several markets.

The lighter business is faced with an increasingly competitive situation due to low cost competition, which has effected sales

For the fourth quarter, sales were 364 MSEK (380) and operating income was 5 MSEK (44). Low sales volumes in Europe, restructuring, and continued negative currency translations effects contributed to the significant profit decrease. Restructuring costs in Europe amounted to approximately 30 MSEK during the fourth quarter.
