The Company's remuneration guidelines: scope, purpose and deviations

A prerequisite for the successful implementation of the Company's business strategy and safeguarding of its long-term interests, including its sustainability, is that the Company can recruit and retain qualified personnel. To this end, it is

necessary that the Company offers competitive remuneration. The remuneration structures shall encourage employees to do their utmost to safeguard shareholders' interests and thereby the Company's sustainability and long-term value creation.

Under the remuneration guidelines, executive remuneration shall be on market terms and may consist of the following components: fixed cash salary, variable cash remuneration, pension benefits and other benefits. The criteria for variable remuneration shall be designed to contribute to the Company's business strategy and long-term interests, including its sustainability objectives. A majority of the criteria shall be linked to clear and measurable financial performance measures (e.g. operating profit and net sales). There may also be non-financial criteria (e.g. operational criteria or criteria linked to sustainability).

The guidelines are found on pages 94–97 in the annual report 2021. The remuneration guidelines, adopted by the annual general meeting 2020, have been fully implemented. No deviations from the guidelines have been decided and no derogations from the procedure for implementation of the guidelines have been made. The auditor's report regarding the Company's compliance with the guidelines is available on www.swedishmatch.com/Corporate-Governance/. No remuneration has been reclaimed. In addition to remuneration covered by the remuneration guidelines, the annual general meeting of the Company may resolve to implement long-term share-related incentive plans. Swedish Match has no outstanding share-plans.
